NRA Range Safety Officer Course

This course of instruction is **designed for persons who have been assigned to oversee range operations and safety.** This course includes: ensuring the range is safe to use, conducting range safety briefings for shooters, handling ammunition and firearms malfunctions safely, supervising safety aspects of shooting activities and handling emergency procedures as established by range management.

Many shooting organizations, clubs, and ranges have determined that their facilities need to be managed and operated by qualified people due to the lack of training specifically for range safety personnel. In response, the National Rifle Association developed the Basic Range Safety Officer course to satisfy the need to have trained persons to oversee and conduct safe range operations.

More trained members within your club or facility can help lower insurance rates, provide greater safety, and improve community relations.

It is NOT necessary to be a NRA Certified Instructor or Coach to take this course.

Lesson Plans Include:

1. Introduction to the NRA Basic Range Safety Officer Course
2. The Role of the Range Safety Officer and the Need for Range Standard Operating Procedures
3. Range Inspection and Range Rules
4. Range Safety Briefings
5. Emergency Procedures
6. Firearms Stoppages and Malfunctions
7. Test, Review, and Certification Paperwork

Attractive certificates are awarded to candidates who successfully complete the course.

April 14th, 16th, and 18th 2015

Tuesday and Thursday evening run 6:00pm – 9:30pm and Saturday runs 9:00am until completed.
