

Heritage Shooting, Inc. OC Pepper Spray Class

Whose personal safety do you worry most about in your life?

Does “my own” come to mind?

A personal safety plan is like an oxygen mask on an airplane: you’re better equipped to protect your loved ones when you protect yourself first. You feel peace of mind simply knowing you have that life-saving device available if anything happens. The **SABRE Personal Safety Academy** provides you and your loved ones with an ‘oxygen mask’ for daily life.

You can never eliminate risk. But paradoxically, when you are habitually prepared to protect yourself, you lessen the chances of ever needing to do so.

This three and-one-half-hour class begins by teaching you ways to maximize your safety while PREVENTING potential attacks. You’ll learn:

- How to elevate your level of awareness
- Techniques to discourage potential personal threats
- Ways to identify and evade criminal “testing” techniques

Nevertheless, despite doing all that you can to deter an attack, you may still find yourself in a situation where you’ll need to act to PROTECT yourself. We’ll teach you how to:

- Defend yourself at a safe distance
- Use pepper spray effectively and responsibly
- Use instinctual self-defense techniques to escape an attacker

Date: July 30, 2022, 9:00 AM–12:30 PM **Cost:** \$65 (includes product to take with you)
